

JAAS

Journal of Analytical Atomic Spectrometry

CELEBRATING 21 YEARS OF PUBLISHING

Offering highly specialised and comprehensive coverage of all areas of modern atomic spectrometry including fundamental theory, practice and analytical applications.

- High impact factor of 3.9
- Top three analytical chemistry journal
- Includes cutting edge reviews

RSC Publishing

The first textbook in the field

NANOCHEMISTRY

A Chemical Approach to Nanomaterials

By Geoffrey A Ozin and André C Arsenault

- Interdisciplinary and comprehensive
- Presents a basic chemical strategy for making nanomaterials
- Describes some of the principles of materials self-assembly over 'all' scales
- Demonstrates nanometre and micrometre scale building blocks
- Suggests new ways to tackle research problems
- Includes speculations on how to think about assembling the future of nanotechnology

Nanochemistry: A Chemical Approach to Nanomaterials is well illustrated with graphical representations of the structure and form of nanomaterials. It contains many pedagogical features and will appeal to graduate and advanced undergraduate students.

Hardcover | 0 85404 664 X | 2005 | 594 pages | £39.95 | RSC member price £25.75
