

MyRSC – Online Community

A professional network for the chemical sciences, hosted by the RSC

MyRSC is leading the way in providing an international networking hub for advancing the chemical sciences. Connect, engage and interact with scientists across the globe regardless of location, career stage or interest.

- Personalise your profile to reflect your specific interests
- Grow your network with people who share common interests, research or workplace
- Join groups and communities based in your field
- Exchange knowledge and expertise with fellow scientists or to get help and ask questions
- Follow blogs and discussion forums - carry on the debate

How to register with MyRSC

Go to <http://my.rsc.org> and click on register, fill out the form.

An email will be sent to your specified address, follow the link to activate your MyRSC account.

You can find and download our quick start guide at <http://my.rsc.org/quickstartguide>

Catalysis Science & Technology

A multidisciplinary journal focussing on all fundamental science and technological aspects of catalysis.

Containing a mix of fundamental applied, experimental and computational work, *Catalysis Science & Technology* brings together homogeneous, heterogeneous and bio-catalysis research. The journal will provide a home to communications, full papers, perspectives and mini-reviews and is relevant to academic and industrial scientists.

Catalysis Science & Technology is led by a dynamic editorial team of active researchers in the field, including co-Editors-in-Chief Piet van Leeuwen (Institute of Chemical Research of Catalonia, Spain) and Cynthia Friend (Harvard University, USA) and Associate Editors Paul Chirik (Cornell University, USA), Noritaka Mizuno (University of Tokyo, Japan) and Paul Kamer (University of St Andrews, UK). With an international presence, the journal is well placed to publish the best research from authors spanning the catalysis community.

Work published in *Catalysis Science & Technology* will benefit from wide exposure, with free online access to all content published during 2011 and 2012 giving maximum visibility to your research.
