

# Better, faster communication

Look no further than the *Journal of Environmental Monitoring* for urgent publication of your cutting-edge research on all aspects of environmental science in the natural and anthropogenic environment.

*Journal of Environmental Monitoring* communications report high impact, preliminary results of current and immediate interest. Communications are fast-tracked through the publication process, given a high profile in the journal and widely promoted.

Featured on the cover is a recent communication on the rapid detection of contaminants in potable water.

## There is an easier way to keep up with research in your field...

An integral part of managing your career as a scientist is staying on top of the news and developments in your field of research and related areas. A good knowledge of your industry is a key component to your success, but finding the time to keep up with the latest research news can pose the greatest challenge.

**The solution?** By signing up for e-alerts from one of our free news services, you can receive updates about newsworthy and significant research appearing in RSC journals in a quick and easily digestible monthly alert.

**Free access.** From each news item you can link directly to the source research paper, which is completely free to access and download for a limited period.

**New tools to help you.** In addition to research news, our news services also feature

- **Instant insights** – whirlwind tours of exciting research areas you should know about
- **Interviews** – leading scientists share their opinions

**Features include**

*IUPAC Gold Book terms linked*

*Hyperlinked compound information in text*

*Ontology terms linked to definitions and related papers*

*RSS feeds with ontology terms and compound structures*

**Benefits**

*Completely free service*

*At a glance HTML view with additional features accessed by toolbox*

*Downloadable compound structures*

## Science comes alive with RSC Project Prospect

Scientists trawling through the thousands of research papers published every month must wish their computer could do the job for them. This could soon be a reality thanks to RSC Project Prospect, an initiative developed by RSC Publishing together with academic partners. Readers can click on named compounds and scientific concepts in an electronic journal article to download structures, understand topics, or link through to electronic databases. Powerful functionality instantly helps researchers to find, understand and share (bio)chemical knowledge with each other quicker than ever before. See the science in journal articles come alive: visit the RSC Project Prospect website for FAQs, examples, contact information and latest news.
